Abstract The article considers the numerically-linguistic anomaly for the theme of Christianity that is investigated by the probability theory methods. It is shown that the probability of casual occurrence of considered anomalies is rather small.

Keywords Law, Numerically-Linguistic Anomaly, Probability,

1. The Anomaly of the Roman Emperor Nero

Nero, one of the most ill-famous Roman emperors, is the central figure of grandiose chronological and linguistic anomalies [1-4]. The full name of the emperor is Nero Claudius Caesar Augustus Germanicus [1,2]. Nero began the first persecution of Christians. In the Roman annals the following is written down about the executions of Christians:
«Their killing was accompanied by tortures as they were dressed in skins of wild animals to be torn to pieces to death by dogs, crucified on crosses or doomed to death they were set on fire with the approach of darkness for the night illumination». Annals XV.44 (See Fig. 1,2).

As early as the antiquity the mystical property of the name «Nero» was revealed. During his rule in the east of the empire the coins were minted with the inscription in Hebrew «נרון קסאר» which is meant the "emperor Nero" («Neron Kesar»). If we consider the digital values of the letters, their
This coincidence, though being the only one, was repeatedly discussed in the corresponding literature and served as an additional basis for the mystification of the personality of Nero as the Antichrist.

The rule of the numbering of the Gematria alphabet letters is as follows: from the 1st to the 10th – in a natural order, the 11th letter receives number 20, the 12th – number 30, … the 19th – number 100, the 20th – number 200 etc., for example, the 30th letter receives number 3000.

The code (the numerical content) of the word is equal to the sum of the numbers of its letters. The so-called gematria is based on this method of numbering.

The number of the Beast 666 is the Apocalyptic number. The basic Romance language is French, one of the world languages. The French language goes back to the language of the ancient Rome. The numerical content of the word Antichrist is precisely equal to the number of the Beast in French:

\[ S(\text{Antichrist}) = 666. \]

Calculation: \( S(\text{Antichrist}) = 1 + 50 + 200 + 5 + 3 + 8 + 90 + 9 + 100 + 200 = 666. \)

If we write the Russian word “Антихрист” according to its sounds using the Latin letters, the word “Antichrist” will turn out:

\[ S(\text{Antihrist}) = 1 + 666. \]

In the same way the name of the enemy of Christians is written in another Romance language, namely in Romanian.

The devilish character of the emperor Nero is reflected visually by the following phenomenal coincidences:

\[ S(\text{Nero is Satan}) = 666. \]

Calculation: \( S(\text{Nero is Satan}) = 50 + 5 + 90 + 60 + 9 + 100 + 1 + 200 + 1 + 50 = 666. \)

For the subsequent coincidences with a view of brevity the calculation is not resulted (it simply to execute manually).

\[ S(\text{Emperor Nero a Devil}) = 13 \times 13 \times 6. \]

In Chapter 13 of the New Testament «The Revelation of the St. John the Divine» it is spoken about the coming of the Antichrist. It is scientifically proved that in the Apocalypse of John the image of the Antichrist corresponds to the Roman emperor Nero. The phenomenal numerically-linguistic coincidence (in English and in Russian) is a convincing evidence of it:

\[ S(\text{Император Нерон есть пришествие Антихриста}) = 6666. \]

In English: (Emperor Nero personifies the coming of the Antichrist).

John’s prophecy has a widely known name the "Apocalypse":

\[ S(\text{Нерон Клавдий Цезарь Август Германик есть Апокалипсис}) = 13 \times 13 \times 13 \times (1 + 3). \]

In English: (Nero Claudius Caesar Augustus Germanicus corresponds to the Apocalypse).

In the final sentence of Chapter 13 of Revelation it is said: «Who has the mind, consider the Beast number, for this number is human; it is number six hundred sixty six»:

\[ S(\text{Нерон Клавдий Цезарь Август Германик число Зверя}) = 666 \times (6 + 6 + 6). \]

In English: (Nero Claudius Caesar Augustus Germanicus corresponds to number of the Beast).

John writes: «And has been overthrown a great dragon, ancient Snake, named as devil and Satan, seducing all Universe, has been overthrown on the earth, and his angels has been overthrown with him»:

\[ S(\text{Nero Claudius Caesar Augustus Germanicus is Dragon tempter}) = 666 \times 6. \]

Nero was suspicious and cruel. According to Suetonius Trankvill “he already executed everybody and for everything without distinction”.

\[ S(\text{Нерон Клавдий Цезарь Август Германик есть маньяк}) = 13 \times 13 \times 103. \]

In English: (Nero Claudius Caesar Augustus Germanicus is a maniac).

Calculation of the probabilities coincidence

On the basis of the existing methods of the probability theory the following estimations of the probabilities of coincidence under the condition of their casual character are strictly proved [3,4]:

The numerical content of a word-combination is precisely multiple to number 666 in one case out of 666. The same rule is true and for numbers 13 \times 13 = 169, 13 \times 13 \times 13 = 2197. The exact divisibility for number 6666 can be fulfilled casually only in one case out of 6666 cases. For the rough coincidence with the error of not more than 1 the probability is more three times.

For the perfect coincidence the probability is much less. For example, the numerical content of a word-combination is precisely equal to number 666 in one case out of 10000. To find out only one similar exact coincidence for the sum equal to 6666, one would have to run back over 100000 phrases at
2. Anomaly of Jesus Christ

Jesus Christ is the greatest personality in history who is proclaimed God-Man by Christians. The «Christ» from Greek means the «Messiah and the Lord's Anointed». Gematria confirms the sanctity of Jesus:

\[ S(\text{God Angelic Soul}) = 666. \]
\[ S(\text{Divine Son is Soul of Believers}) = 666\times1\times3. \]
\[ S(\text{Son Human Belief}) = 666. \]

Jesus was born in the well-known town of Bethlehem:

\[ S(\text{The God of Christians is Bethlehem}) = 666\times2. \]

The saviour of people was born from Spirit Sacred at Maiden Maria (Maria is a name of the Virgin in Latin, German, Spanish and Portuguese languages).

Virgin Mary is a kind magician who is famous for the miracle of the Virgin Birth of Christ. According to a doctrine of the Roman church she like the Son of God was born as the result of the immaculate conception and died under many wonderful events (after Holy Assumption, i.e. Mary's disarnation, the wonderful reunion of her soul and body and their ascension to heaven follows. The Catholic church declared Mary the «Mother of Church»). The corresponding coincidences are the following:

\[ S(\text{The sacred Maiden Maria}) = 666. \]
\[ S(\text{Madonna soul of Christians}) = 666\times2. \]

The Lady day, a Christian holiday, is devoted to announcement by archangel Gabriel to Virgin Mary the secret of impersonation of the God of the Word from her (the Gospel of Luke 1:26–38).

\[ S(\text{Maiden Maria Lady day}) = 13\times13\times10. \]

Maria differed mild customs, to her was attributed the «Mother of Church»). The Catholic church declared Mary the «Mother of Church»). The corresponding coincidences are the following:

When Jesus came of age (the so-called Bar Mitsuah), during the family pilgrimage to Jerusalem the youth disappeared and was found in the Jerusalem temple «in the middle of the teachers, listening to them and asking them» that these rabbis «wonder His reason and answers» (the Gospel of Luka 2, 47):

\[ S(\text{God is Talent}) = 666. \]
\[ S(\text{Иисус Христос есть умный}) = 666\times11. \]

In English: (Jesus Christ is clever)

The number of pupils of the Savior (Apostles) was equal 12:

\[ S(\text{Savior twelve Apostles}) = 13\times13\times(13+1). \]
\[ S(\text{Помазаннык Божий Апостолы}) = 13\times13\times(6\times6\times6). \]

The birth, life, death and Jesus Christ revival are surrounded by weight of secrets. Until recently the science challenged even a reality of a historical figure of Jesus:

\[ S(\text{Christian God Sacred Legend}) = 13\times13\times5. \]
S(Христианский мессия есть тайна) = 13•13•13•5.
In English: (the Christian Messiah is secret)

Jesus has become famous as the great wizard, the miracle man:

S(Christ Logos) = 1 + 666.
The doctrine of Jesus is stated in the final part of the Scriptus – the New Testament:

3. Lenin and Stalin – two great Antichrists

Vladimir Ilich Lenin (Ulyanov) and Joseph Vissarionovich Stalin (Dzhugashvili) – two greatest political criminals. They have made set of rather known villainies. One of the most known crimes – execution of a family of the emperor of Russia. Communists severely executed not only the tsar, the tsarina, but also juvenile children. Some system has created linguistic coincidence which reflect the given historical event [3,4].
S(V I Ulyanov Lenin Execution of the Tsar) = 666•6.
S(Ульянов казнь царской семьи) = 666•25.
In English: (Ulyanov corresponds to the execution of the imperial family).
S(Joseph Vissarionovich Dzhugashvili is execution of the TSAR) = 13•13•31.
S(И В Джугашвили казнь царя) = 13•13•13•5.
In English: (I VDzhugashvili corresponds to the execution of the tsar).

They have become famous for reprisals against clergy. Lenin's known order on execution of 10 000 priests had remarkable number 666 (see Fig. 4). Stalin has especially become famous for the reprisals. Corresponding coincidence:
S(Stalin is reprisals against clergy) = 13•13•13.
Ulyanov–Lenin and Dzhugashvili–Stalin have been betrayed to an anathema and are proclaimed as Antichrists. Linguistic coincidence also testifies, that leaders of communists are the Antichrists:
S(V I Lenin is Antichrist) = 666•(1–1+3).
S(Lenin The Beast) = 1 + 666.
S(Dzhugashvili The Beast) = 13•13•13.
Stalin with the Devil [3,4]. The devil is an evil ghost, a malicious angel. At it there are the several names. The most known names are Satan, Demon, Tchort, Beelzebub, Lucifer, Mephistopheles, the fallen angel.

Coincidences on this theme for Lenin and Stalin (see Fig. 5):

\[
\begin{align*}
S(\text{Ulyanov the Lucifer}) &= 13 \times 13 \times 13. \\
S(\text{Vladimir Ilich Ulyanov is the Demon}) &= 666 \times (1+3). \\
S(\text{Vladimir Ulyanov Lenin is the Fiend}) &= 666 \times (1+3). \\
S(\text{Vladimir Lenin is the Fiend}) &= 1 + 13 \times 13. \\
S(\text{Ulyanov Lenin is the Dragon the tempter}) &= 13 \times 13 \times (6+6+6). \\

\end{align*}
\]

In English: (I V Lenin is criminal).

4. Conclusion

Keywords and word-combinations of the considered themes possess rather remarkable property of Quantization: the numerical contents of these words is multiple to remarkable numbers 666, 6666 and to number 13 degrees.

Rather small probability of the considered coincidences is the proof of the influence of divine forces on mankind, including on human languages.
