## Environment and Ecology Research

Environment and Ecology Research is an international peer-reviewed journal that publishes original and high-quality research papers in all areas of environment and ecology. As an important academic exchange platform, scientists and researchers can know the most up-to-date academic trends and seek valuable primary sources for reference. The subject areas include, but are not limited to the following fields: behavioural ecology, biodiversity, biogeography, coastal management, coevolution, community ecology, ecological complexity, ecosystem ecology, environmental policy, ethnoecology, fisheries management, human ecology, land management, landscape ecology, molecular ecology, population ecology, silviculture, social ecology, sustainability studies, toxicology, wildlife management.

## Creative Commons Attribution License (CC-BY or CC-BY-NC)

All articles published by HRPUB will be distributed under the terms and conditions of the Creative Commons Attribution License (CC-BY or CC-BY-NC). So anyone is allowed to copy, distribute, and transmit the article on condition that the original article and source is correctly cited.

## Open Access

Open access is the practice of providing unrestricted access to peer-reviewed academic journal articles via the internet. It is also increasingly being provided to scholarly monographs and book chapters. All original research papers published by HRPUB are available freely and permanently accessible online immediately after publication. Readers are free to copy and distribute the contribution under creative commons attribution-non commercial licence. Authors can benefit from the open access publication model a lot from the following aspects:

- High Availability and High Visibility-free and unlimited accessibility of the publication over the internet without any restrictions;
- Rigorous peer review of research papers----Fast, high-quality double blind peer review;
- Faster publication with less cost----Papers published on the internet without any subscription charge;
- Higher Citation----open access publications are more frequently cited.
